Thanks Carla

Can you send me the address for the board meeting, I'll come by early and make myself available.

Jamie:
I noticed you were not copied on the data below.

Arnita and Tia:

Please let me know what time you could spare a few minutes to discuss the priority list this afternoon, or in the morning.

Thanks,

Carla

Below is the list of 23 addresses I suggested that EPA prioritize based on health concerns, i.e. previous/recent elevated blood lead, multiple children with elevated lead in the home. Those at the top are highest priority.

Please go ahead and supplement this with your own info about # of young kids in units. Arnita's team and I can update the list as new blood-lead data come in.
